Items of Local Interest Gathered by Reporters on their Rounds.

DOINGS IN AND ABOUT TOWN

Breezy Little Notes of General Interest Picked up Here and There.

J. T. Owens keeps the finest line of shoes in town. 4-20 tf

Mr. and Mrs. Fred Webb, of Eden, were in town the first of the week.

Miss Evelyn and Master Harry Solomon were visitors in the city last Monday.

I. F. Campbell's mill commenced to grind this season's wheat last Wednesday morning.

Dr. Porter has made the optic a study for 30 years and is prepared to successfully treat all kinds of eye diseases. 6-8-21.

Jas. H. Mack was a caller at this office Thursday. He says they had a nice shower in the vicinity of Pima Wednesday night.

Contractor Fuller has commenced work on the new building of the Safford Drug Co. and expects to crowd it to completion as rapidly as possible.

Dr. Dudley has dismissed the last case of small-pox, above San Jose, completely cured, and removed the quarantine.

Mrs. M. E. Brenner, accompanied by her father and mother, Mr. and Mrs. Barnette, went to Camp Arcadia Thursday. They will probably remain there the greater part of the summer.

Mrs. J. B. Collins and daughter, and Mrs. Burns, wife of engineer Burns, of the G. V. G. & N., came up to Safford from Thomas on last Tuesday's train and returned in the evening.

In another column will be found a new advertisement of the hustling firm of Beebe & Sullivan. This firm is selling machinery as fast as it receives it from the factory, which is a sure sign of honest dealing and plenty advertising. Read their new ad and see what they are now offering.

Bert Frye left for the roundup on the Bear Spring flat, last Wednesday. Steers are being gathered and driven to Thomas from which point they will be shipped over the G. V. G. & N. next Monday.

A. M. Jones and Mr. Reed left last Thursday morning for Florence to serve as U. S. Grand Jurors, while Messrs. J. T. Owens, Barnabe Palm, S. A. Merrill, Wm. Nelson and A. Perkins left to-day for the same purpose.

The harvester commenced work on a field of wheat last Tuesday, and the miller made it into flour and the good wife of the farmer had hot biscuits made of it for breakfast on Wednesday morning. Rapid development, that.

E. T. Hubbard was in town this week, and he says they are about ready to start their new roller flouring mill at Mathews and will give their customers 60 pounds of flour and 20 pounds of bran and shorts for 100 pounds of good wheat without docking it.

In the civil action brought by H. F. Norton, of Central, against the railroad company for killing a cow, in which Mr. Norton asked for \$50 damages, judgment was rendered, by Justice Combs, in favor of Mr. Norton. The company appealed the case to the District Court.

Some weeks ago Judge Combs caught a young jack rabbit in his field and took it home. It had not been in the house long until an old cat that had young kittens found it and took it to her young ones and raised it as though it had been one of her kittens, for about two weeks, when another cat found it and made a meal of it.

Last Wednesday morning as C. N. Birdno was driving up the road leading from Safford to Layton with a load of barley for Fonda & Patton some one on horseback rode up close to the team and frightened a fine colt, four days old, belonging to Mr. Birdno so that it ran under the wagon and had one of its hoofs mashed off.

We are informed that the railroad company has consented to abandon the present depot location at Thomas which is about a quarter of a mile below the business part of town and locate it at the head of the street running by the mercantile houses of D. H. Ming and Alexander Bros. This change will not only make it a great deal more convenient for the people of Thomas but also for the traveling public.

I can cure you of the tobacco habit for \$2.50. I guarantee No-To-Bac to cure you. Call at my store and buy \$2.50 worth and if it does not cure you I will refund the money, if you follow my directions. 6-1-tf. J. T. OWENS.

CHILDREN'S DAY.

The Exercises Promise to be Highly Entertaining and Instructive.

The following program will be rendered by those taking part in the Children's day exercises to be held in the M. E. Church to-morrow evening.

PART I.

Consider the Lillies, Opening hymn
Responsive Reading - School
Recitation - Sabbath Sunset
Singing - Pearly Drops of Dew
Introductory Address, Mary Nash
Recitation,
Singing - The Sure Reward
Golden Gate Exercises, I.
Guardian, Ella Gish
Duty, Edie Golding
Truth, Minnie Yielding
Wisdom, Sona Thorstenson
Singing - O Peerless Wisdom

PART II.

Exercises by the Primary Class.
Singing by the Scholars
Wisdom for Little Folks
Bible Gems of Wisdom
Singing - What Folks can do
Object Lesson Exercise
Singing - Little Buds of Promise
Recitation, What a Penny Teaches
Golden Gate Exercises, II.
Service, Cora Jefferson
Singing, Love Gives Its All
Culture, Nellie Groesbeck
Reading, Christian Culture in
Christian Schools
Life, Pearl Austin
Singing, Golden Gate Hymn
Passing through the Gate
Closing Hymn.

DUNCAN.

Born, to the wife of J. H. Brown, a son, on May 30th. John says it is strange how the calendar knew that this was to happen on that date, but they certainly did as they marked the calendar sent him, on that date in red figures. We heard two parties ask Mr. Brown what time the train was due and he answered, "weighed 8 pounds and is a fine boy."

Mr. Jegan passed through to Clifton last Saturday.

Agent Brown went to Clifton to relieve Mr. Smith for a few days, who goes away on business connected with Wells, Fargo & Co.

Mr. Raber, of Clifton, is acting agent in Mr. Brown's absence.

Two of the original owners of the Creed mines, of Colorado, visited Carlisle last week. They speak very highly of Carlisle as a future mining camp.

John Boone and son left for Dallas, Texas last week. Howard C. Boone lingered a few days longer with us, going to Phenix on Tuesday.

It is reported that the Detroit Copper Co. intend building a railroad through here to Lordsburg. It is said that engineers are in the field surveying now.

Thomas Smith, agent at Clifton, passed through to Lordsburg Monday last.

Rev. Angel preached last Sunday in the school house. Mr. Angel is improving very rapidly in each and every sermon he preaches. He is a young man and working in a new field. We wish him much success in the good work.

Mr. L. Sweeney and family passed through going south on Monday's train.

Pap. Ambler, of Lordsburg, spent several days in Clifton last week, returning home Monday.

The mornings for the last week have been very cold—nearly to the freezing point at 4 o'clock a. m. This continued cool weather is very strange for this time of year, although we have had frost in June which cut the vines and corn, but only for one night.

Mr. Shockly has left here and gone back to Pueblo to live.

Slight rains above have increased the water in the river a little but not enough to do any good.

Dr. A. H. Hoefler, of Clifton, came down on last Friday's train, called here by Mr. Boone to examine some insurance applicants.

The first barley of the season was bought by Fonda & Patton, for which they paid 90 cents per 100.

It is pretty well understood that the railroad company will commence the construction of two large water tanks in a short time one to be placed at Safford and one at Thomas.

NOTICE TO CONTRACTORS.

Bids will be received at the office of the undersigned for the delivery of 500 cords of wood, up to and including June 10th 1895, either at Fort Thomas, Geronimo, Mathews, Pima, Central, Safford, Solomonville or Bowie. No bid will be considered for less than fifty cords.

Specifications and form of contract can be had upon application. MIDLAND CONSTRUCTION CO. 5-2-3t. Bowie Ariz.

THE DEAL CLOSED.

The Old Dominion Copper Company of Globe

PASSES INTO NEW HANDS.

The Great Copper Mines Will Now be Operated Under New Management.

A telegram received by Superintendent N. S. Berry, on Wednesday, announced the sale of the Old Dominion Copper Company's mines and plant at Globe. Lewisohn Brothers, of New York, the nominal purchasers, have held an option on the property, which expired on the 25th inst., and it was necessary for Mr. G. M. Hyams, their agent, who left here last Sunday to telegraph the result of his examination of the property. He and the gentlemen of the Arizona Copper Company with him were astonished at the splendid showing of the mine, and the thorough working order in which the entire property was kept, ready to resume the production of copper at a day's notice.

The Old Dominion Copper Company's mine is to-day one of the most valuable properties in Arizona. Always a good producer, the work of the past year has been confined to development, under the supervision of Superintendent Berry, with the result that the mine is now in better shape for the production of copper than ever before in its history. Ore in quantity has been developed on every level, from the first to the eighth. Its present condition can be better understood from the statement of Mr. Berry, that, working the present force—a day shift only ore could be supplied to run two large furnaces, and that by working a night shift also, the output could be doubled, and the mine easily stand the heavy draught of ore.

The bins at the smelter are also well filled with ore, the furnaces in good repair, and all the machinery of the plant in apple-pie order.

The flow of water in the mine has not been troublesome, showing no increase since the development of the eighth level was begun. With increasing depth, however, it is expected that more water will be encountered. To meet this the boiler capacity should be increased; nothing else is required to insure the satisfactory operation of the entire property.

The Old Dominion Company's mine has produced about 70,000,000 pounds of copper, and contrary to the opinion sometimes heard expressed, the mine is good for many years, there being large blocks of copper-bearing ground not yet touched. Without increasing the capacity of the smelting plant, 8,000,000 pounds can be produced annually, which at the present price of copper, presents a profit to the company of about \$250,000.

As already stated, it is not known here who are the real purchasers of the property. Lewisohn Bros. are the heaviest dealers in copper in the United States. They are agents for the Tanarack, the Osceola, and the Kearsage mining companies, of Michigan, the Boston & Montana, and the Arizona Copper Co., of Clifton, Arizona; and stockholders in one of these probably are the purchasers of the Old Dominion.

The supposition is that smelting will begin as soon as the transfer of the property can be made, and when here Mr. Hyams intimated that in the event of the sale being consummated, the purchasers desire to retain the force of men now employed, which would be of great advantage to the new company.

The old company has been handicapped by having so much of its stock tied up in the Simpson estate, which has not yet been settled up. This has been a serious obstacle to the active and satisfactory operation of the mine, and explains why the company did not enlarge its holdings by the purchase of adjoining claims. For this reason, and for others, we believe the change of ownership will prove advantageous and that it will excite renewed interest and activity in the Globe mining district.—Silver Belt.

LOST.

Last Saturday between Safford and Central, a pocket memorandum book, containing papers of no value except to the owner. Return to BEEBE & SULLIVAN, SAFFORD, ARIZ.

RANCH FOR SALE.

Eighty acres of improved land, two miles from Safford, patented, thirty acres in alfalfa, twenty-five acres planted in corn, comfortable adobe dwelling, best well of water in the valley, irrigation facilities unsurpassed, water cannot fail until the Gila river goes dry. The ranch will pay the purchase money in two years from the alfalfa alone. Apply to F. L. B. GOODWIN, Solomonville.

SHOT DEAD.

Bob Cannon Shot and Killed by His Wife.

About 1:30 last Monday a desperate and bloody tragedy occurred at the home of Mr. George Johnson, near the Lexington stables. Mrs. Cannon, formerly Mrs. Hopkins, is a stepdaughter of Mr. Johnson. She was married to Cannon about a year ago and after continuous quarrel the pair separated and she returned to the home of her parents. Here he visited her occasionally and almost as often these quarrels were renewed. A few days since a dispute about some property occurred and the services of Officer Estrella were invoked. As the property belonged to the woman it was delivered to her. She then said to the officer that she would have nothing to do with her husband. To this her mother, Mrs. Johnson, assented, and said that if she did she would not allow her to live at home any more.

Today Cannon dressed himself up and went to the house when the usual trouble broke out with renewed violence. She procured a shot gun and in the melee which followed the gun was discharged.

The entire charge of buckshot with which the gun was loaded entered his right arm, shoulder and side. An effort was made to take him to the hospital but he died just as he reached there and were taking him out of the wagon.—Citizen.

The New Ice Plant.

The new ice plant at Thatcher, established by Prest. C. Layton, is now about ready for business. All that is now wanting is the ammonia with which to do the freezing, and it has been ordered by telegraph and is expected to be here so that ice will commence to be turned out next week.

Part of the machinery for the creamery, to be run in connection with the ice plant, has arrived and the balance is expected in time to have it in running order in side of three weeks.

Prest. Layton said when his stage contract run out last July that he was going out of business, and he sold his store intending to carry out that resolution, but he has been an active business man too long to remain idle for any length of time and he will continue to start new enterprises as long as he lives.

BONITA.

M. L. Woods has just finished a large and commodious addition to his beautiful residence in Bonita, and to-day he commenced cutting his barley, of which he has 100 acres and it will turn out well. He has made arrangements to furnish the post with 100 tons of hay and will begin delivering to-morrow.

Mr. McKittrick has a fine crop of hay which he is stacking for his own use. Should the weather prove satisfactory—that is, if we have the expected July rains—Messrs. Woods and McKittrick will plant corn on their barley ground, which never fails to bring them a good second crop.

B. McClintock accompanied the shipment of cattle to Montana and expects to be gone about fifteen days.

Will McClintock was brought up from the Aravaipa yesterday with a sprained foot, caused by his horse falling on him. Dr. Wells will soon bring him out all right.

The familiar face of Mr. Telfer was seen in our burg this week.

Mr. J. Moyer left to-day with a force of men to gather and drive home the cattle he purchased from Mr. Layton, about 400 head. The prospects at present are not the best for driving cattle to this valley, but if we should have the usual summer rains, they will do well. That is all that is lacking to make this valley one of the best for stock raising in the Territory.

Another Smash-Up.

Last Thursday Doctor Porter hitched his team in front of Mr. Freestone's house, about a mile west of Layton where he had been called to attend a very dangerous case of membranous croup. He had not been in the house more than ten minutes when the animals became frightened, broke their fastening and commenced the return trip at about a 2-40 gate.

The doctor was at a loss to know how to recover the team, when he was given an idea by his five-year-old son, who said: "Papa, let's trail 'em." Papa did trail 'em. The trail was broad and long enough, but the doctor was not fleet enough on foot. But after walking about a mile and a half and wading several ditches he met the rig being returned to him by Will Bennet, who had succeeded in stopping them, not, however, until they had torn the top and seat off the vehicle.

A full line of Millinery Stock at T. T. Hunter's. 4-6-tf

TERRITORIAL.

Clipped and Condensed From Late Exchanges.

PASSING EVENTS OF THE WEEK

Happenings Throughout the Territory Edited With the Scissors.

A Mexican by the name of Jesus Laras has been tried and found guilty of the murder of John Doll, and there is reason to believe that his co-partners in the crime will also be apprehended. The murder was of the most daring and bloody kind and the law will not be satisfied till the last thing has been done to death.—Citizen.

-jo(-

Fire broke out in the residence belonging to Mr. Hyran Chapman, in St. Johns last Monday morning, burning the house to the ground and destroying all the furniture. It is thought the fire started by sparks flying from the stovepipe into one of the rooms. Mr. Chapman will feel the loss very heavy.—St. Johns Herald.

-jo(-

The condition of the Territorial Prison has never in its history been better than it is today and the high point of excellency it has attained is due, in a great degree to the efficient management of Superintendent, Thomas Gatz.—Arizona Sentinel.

-jo(-

Owing to the scarcity of water at his mines it is said T. D. Morris will have to move his mill down to Whelan's ranch, at the mouth of the Aravaipa, or a distance of ten miles from the mine, where water is to be had in abundance. We regret to learn this, but Dory is equal to any emergency.—Sulphur Valley News.

-jo(-

Twenty thousand square miles in Arizona are covered with a heavy growth of timber. The Mogollon forest alone covers over 12,000 square miles, a body of magnificent lumber land nearly as large as Maryland, yet almost untouched by the ax. There are also belts of oak and ash.—Vidette.

-jo(-

United States Attorney Ellinwood is the right kind of a man for Arizonians. Wherever he goes he is spoken of only in words of praise.—Cocino Sun.

Grand Excursion on July 4th.

The G. V. G. & N. Railroad will sell excursion tickets from Bowie and all points on the line to Thomas on account of the Grand Fourth of July celebration, at one fare for the round trip; good going on the 3d & 4th returning up to and including the 6th.

A special extra will leave Solomonville at 7 a. m. the morning of the 4th and arrive at Thomas at 7:40 a. m.

Another extra will leave Bowie on the arrival of No 19 about 9 a. m., and arrive at Thomas at 12 m.

An extra will leave Thomas immediately after the grand ball, about 4 a. m. and another train will leave at 6:30 a. m.

Not Drowned.

An article will be found in another column stating that Al Meyer was one of the victims on the ill-fated Colima but the following from the Gazette indicates that he was not on board:

A telegram was received yesterday by Selim Michelson from Al Meyer at Guaymas who was reported drowned by the Colima wreck, stating that he was still in the land of Manana. He had failed to make connections for the steamer before sailing. He is not by any means sorry for missing the steamer.

A Texas Hail Storm.

At the Point of Rocks, a terrible hail storm is reported to have occurred on June 3d, when stones of enormous size knocked out the brains of sheep and cattle and severely injured many persons.

No window light was left in the neighborhood. Crops and trees were destroyed.

BIRTHS.

BINGHAM.—On the 3d instant, to the wife of R. W. Bingham, of Thatcher, a daughter.

BROWN.—On May 30th, to the wife of J. H. Brown, of Duncan, a son.

MARRIED.

CLUFF—SIMS.—At the residence of the bride's parents at Pima on June 5th 1895, Mr. Frank Cluff of Central to Miss Lucy Sims of Pima.

ALLRED—JUDD.—At the residence of the bride's parents, at Pima, on June 6th, Mr. John Allred to Miss Maud Judd.

DIED.

FREESTONE.—On the 5th inst. the three-year-old daughter of Mr. and Mrs. Freestone, of Layton.

TEACHER'S EXAMINATION.

Two Applicants all that Applied—Both Received Certificates.

As a result of the county examination, teacher's certificates were issued to Alva S. Porter and Alice M. Hunter. Mr. Porter is a new man in the valley, he has purchased a home at Curtis, and thinks this country is good enough for him. He followed teaching as a profession for a number of years in Utah, and we welcome him as such into this community.

Miss Hunter, the daughter of T. T. Hunter our obliging P. M. has been engaged as the teacher at Clifton the past year; two years ago she was an applicant for a second grade certificate and earned it
